

QuickBooks Re-connection Process

May 7, 2021 7:38 AM

1. From the setup page click "QuickBooks Online Activate"

The screenshot shows a blue sidebar menu titled "SETUP" with a hamburger menu icon. The menu items are: Workspace Settings, Dashboard Settings, Payment Setup, Welcome Site Settings, Print Templates, Announcements, File Library, Service Requests, Amenities, Events, Asset Management, Violation Tracking, Security & Concierge, Store / Payments, Purchase Order, Proxy Voting, Keys, Unit File, Groups, Discussion Forum & Classified, QuickBooks Online Activation (highlighted with a yellow box), and Exit Setup. A "Setup" button is visible in the top right corner of the sidebar area.

2. Click the "Connect to QuickBooks" button. You will be re-directed to QuickBooks and be asked to login and connect your company to Condo Control.

The screenshot shows a page with a breadcrumb "Setup > QuickBooks Online". Below this is a header section with the QuickBooks Online logo and a green button labeled "Connect to QuickBooks". Below the header is a section titled "History Records" with a clock icon.

3. From the QuickBooks website click the Connect button

Connecting Condo Control to test

Let's connect Condo Control

Select **Connect** below to get started using Condo Control.

- ^ By selecting **Connect**, you allow Condo Control to view and update your QuickBooks Online data, as explained below

When you select **Connect** we will grant Condo Control access to your QuickBooks Online data. This includes:

- Data about your company
- data about your customers, suppliers, and/or employees
- any updates you may make to your QuickBooks Online data after you connect

You can find a list of data [here](#).

No, thanks

Connect

Intuit and Condo Control may share the information in your Intuit and Condo Control accounts. Your relationship to Condo Control and its use of your information are subject to Condo Control's [Terms of Service](#) and [Privacy Policy](#). To learn more about how Intuit uses your data, see our [Privacy Statement](#).

Disconnect Condo Control anytime from your MyApps page.

©2021 Intuit Inc. All rights reserved.

4. Once the connect is made you will be returned to the Condo Control website where you will see a confirmation that the QuickBooks has been connected.

Setup QuickBooks Online

QuickBooks Online company has been successfully linked to this workspace.
